

HMS Mission

The Health and Medical Services Community seeks to engage students in their education through the integration of Health Technology into the core curriculum requirements of high school.

We will provide health industry related experiences, both inside and outside the classroom, to give students applications for learning, and a context on which to base education and career decisions.

HMS Philosophies

- ★ We teach college-preparatory curricula focused on the health industry.
- ★ We build relationships among ALL team members, including students, teachers, parents and industry partners
- ★ We nurture students' confidence to succeed by teaching them to be effective thinkers and learners, now and in the future.
- ★ We prepare students to become ethical and responsible citizens, family members, and workers.

Commonly Asked Questions

Q1: What will my class schedule be like?

There is a pre-planned schedule for all grades, with room to select various electives. Potential course requirements by grade are included in this brochure.

*Note that 7th period class is mandatory for some grades.

Q2: What kinds of classes will I be taking?

In addition to taking the classes required for high school graduation, you will take classes in health and medicine. You will learn about their histories and the careers available in these fields.

Q3: Is tutoring available?

Yes, tutors are available to help you.

Q4: What are the benefits of the program?

This program will help prepare you for both college programs and entry level jobs in the health industry.

The direction in which education starts a man will determine his future life.

***Plato,
Greek author &
philosopher in Athens (427
BC - 347 BC)***
